

Noopii Fact Sheet

Noopii products carry the NZ FernMark accreditation. Licence number NZFM100277

Dermatest: Leading dermatological testing institute, Germany. Testing undertaken specifically within the baby-care product criteria.

Noopii products are certified to be safe and hypoallergenic

Products achieved '**Excellence**' rating.

Noopii nappies: Materials & Performance

Contain New Zealand Manuka Hydrosol, which may inhibit the growth of bacteria.

Our Manuka is sourced from New Zealand Manuka Bioactives located in Opotiki.

Pure Cotton-blend backsheet for superior comfort, softness, breathability and performance – more gentle on baby's sensitive skin

Performance driven, giving parents peace of mind.

- Noopii nappies offer up to 12-hour leak protection
- Free from latex, chlorine, synthetic dyes and chemicals – Dermatest certification (Sept 2019)

Sustainable materials include:

- Wood pulp – from certified sustainably managed forests (100% sustainable)
- Core wrap – tissue paper from certified sustainable managed forests (100% sustainable)
- Topsheet – viscose from plant cellulose (50% sustainable)
- Backsheet – Cotton PE blend (50% sustainable)
- Waistband – viscose from plant cellulose (50% sustainable)
- Leak guard – viscose from plant cellulose (50% sustainable)
- Packaging – paper and conventional plastic (68% sustainable)
- Carboard cartons – From renewable sources (100% sustainable)

Summary of Facts

Nappy and packaging (100%, 50% & 68%) (70% sustainable)

Nappy, packaging +shipping carton (70% & 100%) (85% sustainable)

Manufacturer Quality Control - Material Data Sheet

| Component Breakdown | Material | Weight (g / gsm) | Measurement | Sustainability | |
|--|--------------------------------------|------------------|-------------|-----------------------|------|
| Top Sheet Non Woven (Hydrophillic Treatment) | Hot Air Through 3D Nonwoven | 42gsm | 490*180mm | 50% Viscose | |
| Sap | Super absorbent polymer | | 12g | N/A | |
| Pulp (FSC) | wood pulp | | 17g | 100% Natural Material | |
| Core Wrap Component | Tissue Paper | 18gsm | 2. 6g | 100% Natural Material | |
| Back Sheet | PE film | 16gsm | 490*175mm | N/A | |
| | hydrophobic hot air through nonwoven | 20gsm | 490*320mm | 50% Viscose | |
| Waistband Material | Non Woven Fabric, Spandex, Glue | 85gsm | 95*40mm | 50% Viscose | |
| Fastening System | polypropylene | 150gsm | 100*65mm | N/A | |
| Leak Guard | hydrophobic nonwoven, Spandex | 15gsm | 490*400mm | 50% Viscose | |
| Leg Cuff | nonwoven, Spandex | 15gsm | | 50% Viscose | |
| Packaging | Paper, nonwoven | | | | 68 % |

Noopii Social and environmental initiatives – Noopii is educational, progressive and inclusive.

Our values are baked into our DNA, we wholeheartedly believe that we all have an obligation to help make a positive impact on our world. We have made a bold commitment. For every pack of nappies sold, we help fund the planting of trees in partnership with the One Billion Trees Programme.

The One Billion Trees Programme will have a positive impact on both society and our environment.

About the One Billion Trees Programme

Led by Te Uru Rākau (Forestry New Zealand) the Programme will:

- create employment and workforce development
- optimise land use
- mitigate climate change
- protect the environment
- support New Zealand’s transition to a low emissions economy.

Why plant trees?

Trees offer a wide range of benefits to landowners, communities, catchments, regions, and New Zealand, including helping to:

- improve land productivity
- tackle environmental issues, like erosion
- reduce the effects of climate change by absorbing carbon dioxide
- improve water quality
- provide important habitats for a range of native species
- enhance natural landscapes
- provide another source of income from timber, honey, and carbon credits
- create jobs and careers for our people.

Maternal and foetal wellness programmes:

Noopii will partner with various community initiatives that support the wellbeing and health of Mothers and babies, through our giving campaign, buy a pack, give a pack. We will also champion inclusiveness and diversity through education and community involvement.

Where are Noopii nappies made ?

Noopii is a wholly-owned New Zealand FernMark accredited company, our manufacturer is based in Auckland and our nappies are initially being assembled in PRC (The people's republic of China) until such time as our nappy manufacturing factory is built right here in New Zealand, we hope that this will be in mid 2020.

Can Noopii nappies be composted?

In order for any materials to biodegrade it requires oxygen, light and heat, therefore this process is impossible to achieve in landfills, even a newspaper won't biodegrade in landfill.

Composting has an array of problems as nappies cannot be composted at home as they contain faeces which is a serious and dangerous hazardous to human health, composting also requires oxygen and very high heat which is only achievable in a specialist commercial composting facility not available in New Zealand or Australia, this is not a commercially viable solution. We recommend that used nappies are put into the rubbish bin and not composted for safety reasons.
